CUSTOM EMAIL EDITOR

- *Build custom emails in minutes*

- *Pull in EverWondr content by simply typing the title*

- *Export code to send via mail chimp or constant contact*

- *Save templates*

- *Add and manage contact lists*

- *Track analytics for future reporting*

Build event emails, custom newsletters and more in minutes -- not hours, not days. With the EverWondr Email Creator, you can save time and frustration. Because our plug-ins centralize your content, you can pull it easily into any email communication. Just type the name of your content and the body of the email populates with information from your EverWondr Calendar, Directory, Blog, Gallery, Ad Units, or Offers Plug-in. No links to reconnect. No images to resize. Once you're done, simply select your contact list and schedule. It's that easy.
