

ADD ON: Integrated Offers

Support local business and give visitors a reason to stay and spend more with integrated Offers. These offers work like an ad unit across any EverWondr Plug-in. They integrate directly into the listing display and as tabs on specific and related content. Each listing can link to ticket sales, a custom e-commerce check out or a downloadable coupon. We take no commission on sales. All profits stay with your community as they should. You can even decide what offers to display and what offers to hide. To learn more, schedule a free demo today.
