

## ADD ON: Promotions and Lead Capture

Collect information about visitors while giving them more reasons to stay. With any EverWondr Plug-in, you can add the ability to collect user information. This can be done as part of a sweepstakes in which you attach the sign up to relevant content. Or you can simply add a registration for future communications, like an email newsletter. Network multiple partners to build your contact lists even faster. All information is collected and can be downloaded from the EverWondr admin panel. The process is simple and the perfect compliment to any EverWondr Plug-in.

- Display Promotions Directly in Listings Like Content
- Tie into Relevant Directory Listings and Events
- Collect User Data for Research
- Grow your Contact Lists for Remarketing
